

The American Rescue Plan: Impacts on Wyoming

The Need for Action in Wyoming

The pandemic and the associated economic crisis have had a severe impact on Wyoming. The need for action is clear:

- Since the pandemic began, more than 54,000 people have been infected with COVID-19 and more than 600 people have died.
- The unemployment rate is 5.2%, up from 4.8% before the pandemic.
- Since February 2020, more than 5,000 fewer people are employed.
- 30,000 adults – 8% of all adults in the state – report not having enough food to eat. This includes 14,000 adults living with children, or 10% of all adults living with children, who report that the children in their household do not have enough to eat.
- An estimated 13,000 renters or 13% of renters are not caught up on rent.
- An estimated 134,000 adults or 33% of all adults statewide report having difficulty covering normal household expenses.
