## LITTLE AMERICA ANTARCTICA CLAIMED FOR U. S. BY BYRD.

On Saturday August 24th, Commander Byrd hoisted the flag as the sun turned and the men uncovered their heads at forty degrees below zero.

## GRAF ZEPPELIN COMPLETES ROUND THE WORLD FLIGHT

The GRAF ZEPPELIN, piloted by Dr. Eckener, landed at Lakhurst, New Jersey, Thursday, August 29th, completing the first round the world flight of a craft of this type in 21 days 7 hours and 15 minutes. The Zeppelin carried 19 passengers and a crew of 42, all of whom were jubilant on the successful termination of the undertaking.

Flights such as this are ushering in a new era of transportation, proving to the doubters that the next century of transportation will be a history made in the clouds. Already a \$20,000,000. air transport service has been organized to fly between Germany and Japan with intermediate stops - the result of the GRAF ZEPPELIN'S record which shows the feasibility of such a plan.

New Yorkers are becoming so accustomed to the sight of the Zeppelin overhead that a new simile has been adopted - "as old fashioned as the fellow who looks up when the GRAF ZEP appears over New York."

The Zeppelin is to become a permanent unit in the trans-atlantic passenger service.

## NEW AIR LINE

Col. Lindbergh is to make a flight from Miami to Paramaribo, Dutch Guiana, to inaugurate a 1240 mile extension of the Pan American Airway Lines.

Both the Soviet and Chinese Governments are massing troops on the boundary but no major encounter has taken place which would bring on an actual state of War.

## THE PAN-ARUBAN

The PAN-ARUBAN is by and for the Employees of the Pan American Petroleum Corporation, and affiliated Companies. It proposes to present the issues, not debate them; to publish news, not create it; and to make Aruba more enjoyable.

### EDITORIAL COMMENT

#### QUEEN WILHELMINA CELEBRATES 49th ANNIVERSARY

Helene Pauline Marie Wilholmina, Queen of the Netherlands (Holland) and Sovereign of the Crown Colony - Aruba, celebrates today her forty-ninth birthday.

To most of us, nationals of other countries, the experience of celebrating the Crown's birthday is new. Never very well posted on our own country's history, our attention has seldom roamed to an historical study of a foreign country with which we had no direct connection.

However, residents of Aruba it is fitting that we turn our gaze to a brief historical survey of the mother country on this, the most widely celebrated anniversary throughout the Dutch territorial domain.

At the end of the Napoleonic Wars and the inception of the Holy Alliance (1815), the French armies over ran Holland and Napoleon made his brother, Louis Bonaparte, King of Holland. Napoleon's defeat at Waterloo and the Congress of Vienna led to the proclamation of William V, as William I, King of the Netherlands, in March 1815. He was recognized as an independent sovereign by all the powers of Europe. Under William II, his son, a better constitution was granted than had been in effect. He died in 1849 and William III reigned until 1890.

In 1890, at the age of ten, Wilhelmina, descended from William the Silent, succeeded to the throne of Holland. At eighteen she became sovereign in reality as well as in name. In 1901 she married Prince Henry, youngest son of the late Grand Duke of Mecklenburg - Schwerin.

Queen Wilhelmina, besides ruling over the mother country, Holland, is the sovereign of vast colonial possessions covering an area of over 800,000 square miles with a population of 38,000,000 persons.

Thirty-eight million people in the Dutch colonies are paying homage to their Queen today, just as we have celebrated the birthday of our country from our first days of remembrance. We are residents of Aruba, temporarily earning our livelihood here, and so we too take off our hats in salute on this national holiday.

### OVER THE TOP

It isn't done with flashing bayonets and a rolling birrage these days but the old red bubbled and spurted when the temperature hit the top.

It is scarcely necessary to thank every one who helped "Fill It Up" because in reality it was a \$1000 drive to make possible a big day for every body. There is reason for congratulating all of you however, for the splendid cooperation you have shown in putting the day across.

If you have a good time today, don't thank the committee - thank yourself, because YOU put it "Over the Top."

.....

**THE SALESMAN OF A CORPORATION**

Editor's Note: From the editorial columns of a trade magazine comes this clear reasoning:

"A Corporation may spread itself over the whole world and employ 100,000 men, but the average person will usually form his judgment of it from his contact with one individual. If this person is rude or inefficient, it will take a lot of kindness and efficiency to overcome the bad impression. Every member of an organization who in any capacity comes in contact with the Public, is a Salesman, and the impression he makes is an advertisement, good or bad."

.....

**WANTED TO BUY**

One Used Car in Good condition. See M. C. Batee, Room 24, No. 1 Bachelor Quarters, or call Pan-ARUBLN Office. Phone 04

.....

The Secretary of the Air Ministry of Italy has requested Great Britain to postpone the Schneider cup races scheduled for September 6th and 7th at Cowes, Isle of Wight.

.....

The successful experiment of launching and recovering airplane by the dirigible "LOS ANGELES" is regarded, by Rear Admiral Moffat, as a great advancement in proving the usefulness of large airships as a base of airplanes.

The S. S. "PRESIDENT HARRISON" rescued the Captain and crew of twenty five men from the ill-fated German freighter "Quimistan" after they had struggled against a rough sea for three days.

.....

**PLENTY OF ENTRIES**

Some said - "I've put in my entry; I'm entering the last event - keg beer and hot dogs."

**CHILDREN'S CLINIC**

(General Notice posted 8.27.29)

The Hospital will hold a clinic for children from 2:00 to 4:00 P.M. each Thursday, beginning September 5th. These hours each week will be devoted to children exclusively and no consultations will be held during this time unless imperative.

The children will be weighed, diets corrected and checked, and any necessary advice given to the Mothers. We hope that the Mothers will take full advantage of this service.

.....

**PASSENGER PLACES**

(General Notice posted 8.24.29)

You are advised that transportation on Company Ships from the United States to Aruba and return is \$24.00 each way per person for the original round trip; children three to twelve years of age, half fare, and under three years no charge.

**BRIDGE IN ARUBA**

The second session of the Bridge Club met in the Mess Hall Wednesday evening, with an increased number of Bridge fit present over last week's attendance. Six tablees started playing promptly at eight o'clock, and when the final hand had been played shortly after ten thirty Don Heebne was found to have the high score of the evening, with H. H. Mathias a close second.

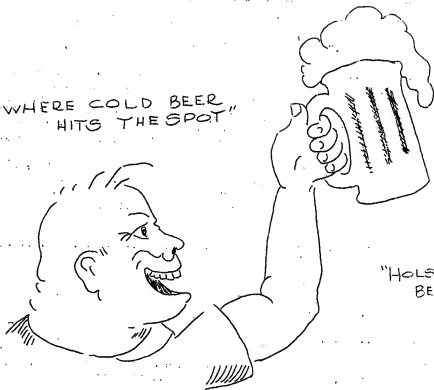

Mr. Cleveland, who acts as host to the Bridge Club, presented the cash prize to the winners, and at just the right moment his Chinese butler served tasty sandwiches and coffee.

Interest grows with each meeting of the Club. You are missing a good time if you do not come out and play with the boys. Next Wednesday night at 8 - Pan Am Mess Hall - remember the time and the place.

.....

Never explain; your friends do not need it, and your enemies will not believe you any way.

ORANJESTAD - ARUBA.

# "AS WE GET IT"

5

We make friends only to say good bye with the memory remaining with us that they were mighty true friends, and we hated to part. So the Camp felt when our "Doc" Sher and the Chemical Construction Company "good fellows", Hunter Miley and Herbert Hochenbleikner, left Sunday on the "HAROLD WALKER".

"Doc" is going to give Chicago the once or twice over for a couple of months and then will return to Aruba. Hunter and Herbert are bound for the Sunny South - we're hoping the Company has another Acid Plant to build in Aruba, and that those fellows get the assignment.

Then Mr. E. H. Clendenin left on the "DANZIGER" last week and Mr. and Mrs. McCuno departed on the "MARACAIBO" bound for Curacao enroute to the Panama Canal and California, Aruba lost the first pioneers of the Refinery construction period. Many boats came and went but "Clen" and Mac stayed on. Its hard to say adios when you hate to see people leave, but leave they must, and so "Adios and Bon Voyageo."

Back to New Orleans with its quaint French Section and its song of the Dusky Stevedore - that's where Louise and Clinton Turner are bound for on the "STEED." "Clint's" coming back, and we think that Louis will too.

Don't forget, Louise, when you look at Aruba's coral hills - "Thar's candy and perfume in them thar hills."

Coy Cross hasn't had so much ginger since Mrs. Cross and Faye left for Des-trahan. It is said that part of it is due to a hard game of tennis and no reputation, but those who are in the "know" claim that no man is at his best away from his family. However, sorry as we are for Coy, we are sorrier to lose Mrs. Cross and Faye from the Camp.

The PAN ARUBAN acknowledges the receipt of a poem written by Johnnie Young, entitled "SATURDAY NIGHT IN ARUBA," the length of which prevents printing within our already too limited space.

The S. S. "R. W. STEWART" sailed from the harbor Monday morning carrying on her passenger list the names of Mrs. W.R.C. Miller, Helen and Rowena Miller and Marie Larsen. The Miller family was one of the first New York contract families to arrive in Aruba. While glad for a change, they were sorry to leave Aruba. Miss Larsen, "co-skipper" of the "STEWART" had been the house guest of Miss Miller for the past six weeks while the STEWART was away on its trip to Montevideo.

Mr. and Mrs. Beach left last week for their home in the States. We wish them luck and happiness back in their old accustomed haunts.

After Jack Rutz perfected his two step jump from the bus, he turned to a more luxurious mode of transportation he bought Mr. Beach's roadster No. 428. Remember the number - it will help you in getting a lift.

The new Dodge belonging to C. C. Ross narrowly missed having an untimely demise Wednesday, when it was struck by a large truck and considerably dented. Mr. Ross was driving at the time, and the car was turned completely around, and only his clever handling of it prevented its overturning.

While considerably shaken up, Contractor Ross escaped without injury, and insists the incident was nothing worth mentioning.

Falling in line with the Queen's idea of having a birthday in August, Andy Tully decided to have one, too. Andy went about it rather quietly, and to many of his friends it remained a secret. However, to a few of his closest friends Andy played host at a very enjoyable party. These friends were anything but secretive concerning the royal way they were entertained by Mr. Tully.

This is the second birthday Mr. T. has celebrated in Aruba.

Bungalow 47 turned domestic last Saturday evening and "threw" a dinner party. Jack Emery proved. Jack Emery proved to be a chef of no mean culinary cleverness, and his glorified platters will long remain in the memory of the boys. The praises were high, but the most succinct statement came from Mrs. Rae who helped the boys out with her kitchen and utensils - "I recommend they use wooden dishes next time."

Forty Seven thanks Mrs. Rae and Mr. Russell for aiding them in the Saturday Chow-feast.

Isn't it funny how different fellows will look at the same thing differently. Some of our boys have been heard to express themselves as thinking 18 months was a long time to be away from home. Now, Roy Malley has entirely another view point. Eighteen months to Roy is simply no time at all. Why, he hasn't unpacked his trunk since arriving figuring that if he was only going to be here for a year and a half, it wasn't worth while to spread his stuff.

Eternity to Roy will seem but one short day.

Mention was made last week of the unusual good behaviour of the radio owned, operated and controlled by Allen R. Mansir. Alas, we regret to chronicle that the good reception lasted but one short night - the music proved to be a swan song. Not even a gasp has been heard from this radio since last reported.

If Allen could collect time and half time for the hours spent tinkering with this mis-behaving set, he could retire at once - or afford to buy a good set.

Andrew Tully, after residing for over one year in the Butterfield House (which we believe is the record for length of time in one house in the Camp) has moved up town into the new Bachelor Quarters, and is now commuting with the rest of the boys.

Mr. Tully says, "After my long sojourn in the crowded business district, I find it particularly pleasurable to be living in the charming suburbs of San Nicholas."

Kaplan, of the Accounting Department was suffering with a swelled head over the week-end (we didn't say "weak-end.") No, not from conceit, but boils, which caused his head to swell painfully.

Wouldn't it make a restaurant keeper happy if his place of business was as full of customers as the mess halls are at meal time?

One evening during the past week a number of contestants in today's Marathon were getting into form, running in from the lagoon. There were about a half dozen in the group, and way in the rear was Cohen, the Stationery Clerk, puffing along doggedly, thought steadily losing.

Just before passing us, Cohen came up to a by-stander, who tried to stop him. Cohen wouldn't be stopped, so the man ran along beside him. "How about some stationery?" the fellow yelled at Cohen. Now, whether it was that magic word Stationery, or whether he didn't want hear the word cannot be learned, but Cohen suddenly became fired with en-

thuisiasm and in a mad spurt of speed, he leaped ahead of the others, running quickly out of sight - and the other poor guy never found out what about some stationary.

THE ROOMING REPORTER REPORTS

He has just moved, and would like to hear of the man who can move and still have a smile on his face. The Bachelor Quarters aren't half bad, but trying to persuade the bachelor residents that their new quarters are going to be much nicer is no easy task for the Personnel Department.

Jako Forter has a dirty spot under his nose, and in time he says it is going to be a moustache. Does the better half approve, Jake?

The Timekeeping Department is another unit that has moved this week. These Dark folk who quit in the middle of the week are going to be worried about their guilders when they find the old Time-keeping Office filled by the Personnel Department. There is just the chance that in trying to quit, they may find themselves hired all over again.

Jim Bluejacket is back from a short trip to Curacao, and has promised something of interest for a future edition of the paper. Seek and ye shall find, what he has to say on some other page, in some other edition.

Erwin, Nelson and Cunningham are wondering if Room 13 is going to prove a jink in the new Bachelor Quarters. They don't seem worried. Rod was making some straps Wednesday morning to keep himself in bed.

Have the Tropics got hold of Jimmy Heard? He had something for the paper and when the Reporter got out his pencil and paper, he had forgotten it.

Tommy Maupin from the wide open spaces of Texas is pushing a pencil in the Material Accounting Department.

Miss Eleanor Wade and Miss Claire Hopkins are pushing keys in the Personnel Department. Business should be good for that Department.

Jimmy MacEachern has taken a new lease on life - and we know the reason.

Another Sunday past time which the Reporter has little interest in are these all day hikes. Frank Hocking and Lyle Jay came in Sunday night with

6-1, 6-1  
Myers " Trappey 9-7, 1-6,  
6-2, 6-3.

(Continued from Page 11)

with both morale and shoes badly shattered to say nothing of the way they felt Monday morning.

Johnnie Grey left on the S. S. "STRED" in quest of a mate, and a farewell party was scheduled for last Tuesday night in his honor. When it came time for the party, Johnnie was no where to be found. His friends searched every where, even in the hoose-gow, without finding him. The future Mrs. Frey has reason to be proud of her husband-to-be - John was working

Engineers are obliged to do about everything, and "Perk" is one of the most obliging. Perk went to some little trouble last Sunday morning in the warehouse in order that the dogs around the Camp might be more contented. And we don't mean "hot dogs" either.

Joe Strong is so much in the habit of sitting on the beds, that he forgot himself in the hospital the other night. If you have ever been witness to anyone found sitting on a bed, in the hospital, this needs no further explanation, as it is a crime unpardonable.

-----  
SECOND INSTALLMENT OF PIONEERS

In our first issue of THE PAN-ARUBAN, appeared a list of the pioneers of this Camp who had one year or better to their credit at the time of printing. Since that time many others have passed the one-year mark in Aruba. The list of Contract Men appears below, to whom we extend congratulations:

Adams, James W.	Beattie, James
Coults, Roy B.	Poole, H. E.
Crawford, Johnnie L.	Ree, David A.
Cunningham, G.W.	Snyder, W. R.
Campbell, Earl W.	Stremmler, Fritz
Campbell, Frank S.	Sutton, J.E.
Deslattes, Moies	Votaw, Wm. L.
Dickerson, Earl E.	Dearborn, Irvin E.
Erwin, Roy	Kahl, Herbert H.
McDermott, M.J.	Marshall, Pat.
Miller, Edwin V.	Moure, Harry F.
Opsahl, Jacob M.	

## ALA EDISON TEST

The New York "Sun" carried in "The Sun Dial" their own Edison Test "to find successors for Grover Whalen, Vice-President Curtis, Bishop Cannon and the good old high-wheeled bicycle."

A few of the questions follow:

1. Who invented the No. 7 snapper-blue-fish hook and how long will it take a man 5 ft. 11 inches high to get one out of the left leg of a pair of trousers three inches too short for him?
2. What is an emetic and for what are its feathers used?
3. What is the future of the automatic windshield wiper? The outboard motor? The traffic whistle?
4. What do you consider the six most important qualifications for success, eliminating the fact that her father owns a big business, that your average golf score is 74 and that you can always tell a good story without consulting the back of an envelope?
5. Define work, volley ball and bridge and show why there is little difference.
6. What is the difference if any between chlorine gas, prussic acid, chloride of potassium, carbolic acid and house-party rye?
7. What would it be necessary to do to a buttonhook before it could be used as a pipe cleaner? As a soup spoon? As a carpet beater?
8. What is a filigree and with what bird is it mated to get chicken ala King?
9. Why does the country honor Blue Larkspur? Lou Gehrig? Henry Ford? Texas Guinan? Daylight Saving Time?
10. If you were close to the solution of the problem of how to get more than two shaves out of a safety razor and you learned that the boy next door had a working model in a bureau drawer, what would you do if he kept no dog, and how much would you take for the invitation?

PLUM: Peaches, did you sew that button on my shirt?

PEACHES: No, Plum dear, I did not have a button, so I sewed up the hole.

## NEW SIGHTS AT HOME

A week or two ago our Editor very nicely spoke of the great changes which had taken place in Aruba from the time our first pioneers arrived until they would depart. Now they have started to go back to the States, and one cannot help thinking of the many changes these men will find at home after their 18 months absence. The Talking Movie will be new to most of them, and there is a brand-new President in the White House since they left. And perhaps Junior will have donned long trousers, and many other interesting changes will present themselves, made doubly interesting because these men have been away.

Sometimes if we do not venture away from our native haunts, we fail to appreciate the many blessings as they come to us in this wonderful age in which we live. If, on our return from Aruba, we are able to enjoy things more, realize their worth to a fuller extent, then indeed has the stay in Aruba been of value from more than a dollars-and-cents point of view.

Should any one chance or care to start a "Beautifying Aruba" movement, they would find a large and uncrowded field of opportunities. Perhaps Bob Heinz had such a movement in mind when he built those lovely cement walks at the Acid Plant. Violets and pansies bedded along them would add to the attractive picture, and buttercups would match nicely with the sulphur pile --while adding to the variety of the menu of the goats.

Mrs. Woodrow Wilson on her round-the-world tour has reached Shanghai, and is proceeding to Japan, her next port of call.

One can truthfully say that there have been some "hot" tennis matches played on the new courts during the past week.

Miss Doris Steele of the U.S.A. is among the week's arrivals in Camp. Miss Steele is a striking blonde, and we predict she will soon discover that the expression "Gentlemen prefer Blondes" is just as true on Aruba as back home. Miss Steele comes to us in the capacity of a trained nurse.
